

Swansea Fish Photo Shoot V

Sunday 28th August 2022

The 5th Swansea Fish Photo Shoot, organised by the Combined Hunter Underwater Group (CHUG), was run on 28th August 2022.

Thanks to the 6 participants who took part or sent in photos:

Margo Smith, Ashley Smith, Kate Tinson, Cath Shorthouse, Gina Mascord and Chelsea.

Teams sent in photos of up to 15 different fish species, and scored 1 pt for each clear photo, 1 pt for each correctly identified species, and 1 pt for each species no other team submitted (max. 45 pts)

Species ID was perfect and scoring was very tight with two equal top scores of 37 pts; Congratulations to Kate Tinson and Gina/Chelsea!

The most unusual fish was a Mangrove Jack (*Lutjanus argentimaculatus*) found by Kate Tinson. This tropical species was well south of its usual range!

The most exciting image was a White-speckled (or Stout) moray (*Gymnothorax eurostus*) by Gina and Chelsea. This is also a tropical species outside its usual range!

Mangrove Jack
(*Lutjanus argentimaculatus*)

White-speckled moray
(*Gymnothorax eurostus*)

Between everyone taking part photos of 47 different species were submitted, with many other species seen on the day.

The album below shows photos for each of the species entered.

Swansea Fish Photo Shoot - Species Album - 2022

Banded toadfish (*Torquigener pleurogramma*)

Bartail/freckled goatfish (*Upeneus tragula*)

Black Rabbitfish, Happy Moments (*Siganus fuscescens*)

Black-spotted wrasse (*Austrolabrus maculatus*)

Blotched Hawkfish (*Cirrhichthys aprinus*)

Blue-barred orange parrotfish (*Scarus ghobban*)

Blue-lined goatfish (*Upeneichthys lineatus*)

Blue-nose whiting/Sand whiting (*Sillago ciliata*)

Cleaner wrasse (*Labroides dimidiatus*)

Comb wrasse (*Coris picta*)

Cut-ribbon wrasse (*Stethojulis interrupta*)

Dwarf lionfish (*Dendrochirus brachypterus*)

Swansea Fish Photo Shoot - Species Album - 2022

Eastern fortescue (*Centropogon australis*)

Eastern hulafish (*Trachinops taeniatus*)

Eastern Red Scorpionfish (*Scorpaena jacksoniensis*)

Estuary catfish (*Cnidoglanis macrocephalus*)

Fan-belly leatherjacket (*Monacanthus chinensis*)

Girdled parma (*Parma unifasciata*)

Green moray (*Gymnothorax prasinus*)

Gunthers wrasse (*Pseudolabrus guentheri*)

Hit and run blenny (*Plagiotremus tapeinosoma*)

Hoeses sand goby (*Istigobius hoesei*)

Horned Blenny (*Parablennius intermedius*)

Immaculate damsel (*Mecaenichthys immaculatus*)

Swansea Fish Photo Shoot - Species Album - 2022

Kelpfish (*Chironemus marmoratus*)

Luderick (*Girella tricuspidata*)

Mangrove Jack (*Lutjanus argentimaculatus*)

Old wife (*Enoplosus armatus*)

Pale-barred coris (*Coris dorsomacula*)

Pineapple fish (*Cleidopus gloriamaris*)

Pygmy leatherjacket (*Brachaluteres jacksonianus*)

Rainbow cale (*Heteroscarus acroptilus*)

Red morwong (*Cheilodactylus fuscus*)

Sand mullet (*Myxus elongatus*)

Senator wrasse (*Pictilabrus laticlavus*)

Sergeant major (*Abudefduf vaigiensis*)

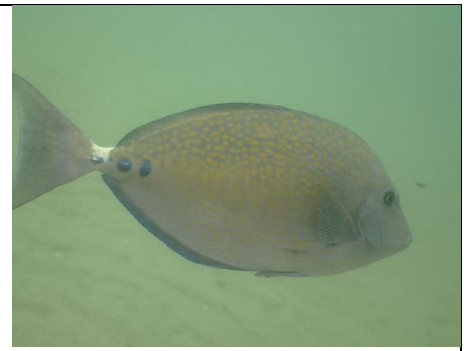

Swansea Fish Photo Shoot - Species Album - 2022

Silver sweep (*Scorpius lineolata*)

Snake-skin wrasse (*Eupetrichthys angustipes*)

Spotted sawtail (*Prionurus maculatus*)

Starry puffer (*Arothron stellatus*)

Tarwhine (*Rhabdosargus sarba*)

Three-bar porcupinefish (*Dicotylichthys punctulatus*)

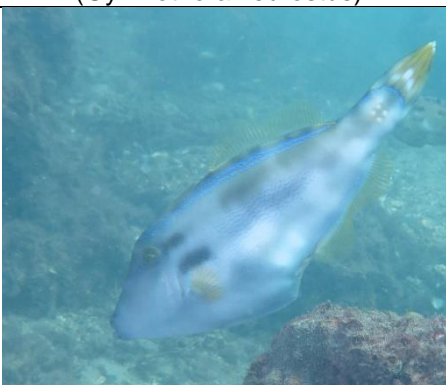

White-speckled moray (*Gymnothorax eurostus*)

Yellow fin bream (*Acanthopagrus australis*)

Yellow sabretooth blenny (*Petroscirtes fallax*)

Yellow-finned leatherjacket (*Meuschenia trachylepis*)

Yellow-tail kingfish (*Seriola lalandi*)
